

STRATEGY & GOVERNANCE	
Is there a state agency or taskforce responsible for AI regulation or development?	Yes. The Louisiana Innovation, a new division of Louisiana Economic Development, will develop the Louisiana Institute for Artificial Intelligence, a 501(c)(3) that will serve as the state's lead anchor for statewide AI strategy, focused on applied research and development, commercialization, workforce development and policy. <sup>226</sup>
Is there an enacted AI law or regulation that applies to health insurance?	No.
Is there an official state strategy on AI?	Yes. The Louisiana Office of Technology Services (OTS) issued an Artificial Intelligence Acceptable Use Policy for state agencies. <sup>227</sup>
CONSUMER PROTECTIONS	
Is there a state data protection law that applies to AI use of personal data?	Yes. The OTS' AI Acceptable Use Policy requires state agencies leveraging AI to protect the privacy and security of data in accordance with the OTS Information Security Policy and any applicable state and federal laws and policies. <sup>228</sup>
Is human oversight of AI required?	No.
Is there a consumer complaint mechanism available?	No. However, consumers can <a href="#">file a complaint</a> through the Department of Insurance if they believe AI has been used improperly within their health insurance. <sup>229</sup>
Has the state insurance commissioner adopted the NAIC Model Bulletin or a similar bulletin?	No.
FUTURE READINESS	
Are there state-based advocacy groups related to AI in health insurance or health care?	No.
Are there state-funded training opportunities on AI?	No.
