

STRATEGY & GOVERNANCE	
Is there a state agency or taskforce responsible for AI regulation or development?	No.
Is there an enacted AI law that applies to health insurance?	No. However, A.B. 406 prohibits an AI provider or person, without professional mental or behavioral health care credentials, from making representations that would lead a natural person to believe they are a licensed professional. <sup>304</sup>
Is there an official state strategy on AI?	No.
CONSUMER PROTECTIONS	
Is there a state data protection law that applies to AI use of personal data?	No. Nevada's personal data law focuses on notification requirements for data breaches, but it does not create consumer rights related to their data. <sup>305</sup>
Is human oversight of AI required?	No.
Is there a consumer complaint mechanism available?	No. However, consumers can <a href="#">file a complaint</a> with the Nevada Division of Insurance if they believe AI has been used improperly within their health insurance.
Has the state insurance commissioner adopted the NAIC Model Bulletin or a similar bulletin?	Yes. Nevada Department of Business and Industry, Division of Insurance issued Bulletin 24-001 adopting the NAIC's Model Bulletin. <sup>306</sup>
FUTURE READINESS	
Are there state-based advocacy groups related to AI in health insurance or health care?	Yes. The National Association of Social Workers, Nevada, supported the passage of A.B. 406 as social workers were raising serious concerns about the use of AI as an unregulated therapy tool. <sup>307</sup>
Are there state-funded training opportunities on AI?	No.
